

FOR IMMEDIATE RELEASE

CMMC Liftoff 2025 to Deliver Hands-On Guidance for DIB Contractors and MSPs Preparing for Assessment

Live event in Chantilly, VA, will empower attendees to get compliant, get confident, and get ready for CMMC Level 2 with real work, not just words.

CHANTILLY, VA – September 4, 2025 – With **CMMC assessments officially underway** and contract clauses set to appear in DoD solicitations in the coming months, the stakes have never been higher for the Defense Industrial Base. To meet the moment, **Mission Compliant**—a joint venture between cybersecurity leaders **CompliancyIT** and **Queen Consulting Technologies**—announces the launch of **CMMC Liftoff 2025**, a one-of-a-kind, **hands-on readiness event** for **DIB contractors, MSPs, MSSPs, CISOs, FSOs, and compliance officers.**

Taking place on **Friday, November 14, 2025**, at the **Westfields Marriott Washington Dulles in Chantilly, VA**, the full-day event (8:00 AM – 8:00 PM) is **laser-focused on real deliverables, not theory.** Unlike typical conferences that leave attendees with vague ideas and unanswered questions, **CMMC Liftoff is structured around action, clarity, and doing actual work.**

The right event for the present moment. “CMMC is here. If you’re presenting for an assessment and you’re not ready, you risk wasting tens of thousands of dollars—and potentially losing your contract,” said **Leia Kupris Shilobod**, CISM, CCP, CEO of CompliancyIT. “CMMC Liftoff is designed to *eliminate the guesswork*. No fluff. No jargon. Just real talk, hands-on work, and a clear path forward.”

Key Hands-On Sessions Include:

For DIB Contractors:

- **SSP in Action**
Attendees bring laptops and work on actual control statements with expert support—leaving with content they can use.
- **Scoping Done Right**
Participants begin mapping their systems, data flows, and scope boundaries with guidance from CMMC professionals.
- **The Legal Risk of False Claims**
Attorneys explain the real consequences of poor documentation or misleading assertions in CMMC artifacts.

- **How to Select the Right Compliance Partner**

Discover how to identify quality partners—and what “too cheap” usually means about their readiness and yours.

For MSPs/MSSPs:

- **Compliance at Scale: Building a Repeatable, Defensible CMMC Offering**

How to standardize your compliance services, avoid margin-killing custom work, and know when to partner or walk away.

- **Writing the Technical Truth: How to Document Your Controls in the SSP**

A guided workshop for MSPs to write implementation statements that pass assessor scrutiny—mapped directly to 800-171.

Featured Speakers

CMMC Liftoff brings together **the most trusted voices in the ecosystem**, including:

- **Leia Kupris Shilobod**, CISM, CCP – CompliancyIT
Author, RPO, Founder of the IT Documentation Toolkit, lead two Clients through CMMC Level 2 Certification
- **Nathan Scott**, CCP – Queen Consulting Technologies
Principal consultant and co-architect of scalable CMMC offerings
- **Ozzie Saeed**, CISSP – IntelliGRC
